lightbend-examples (0.0.1)

Maksim Kostromin

Table of Contents

Travis CI status: [Build Status]

Chapter 1. Introduction

This repo contains some hints and examples for development with lightbend: akka, play, scala, lagom

Project reference documentation

Initially generated by using generator-jvm yeoman generator (kotlin-parent-multi-project)

Chapter 2. Implementation

2.1. prepare environment

To avoid some JDK8 Cassandra issue, please use java version 1.8.0_152

2.2. akka-quickstart-scala

fetch quickstart project

```
wget -qO app.zip "https://example.lightbend.com/v1/download/akka-quickstart-
scala?name=akka-quickstart-scala"

unzip app.zip -d .
cd akka-quickstart-scala/
./sbt compile
```
